

HEATON DENTAL CARE

Patient Antibiotic Advice Sheet

If your dentist has prescribed you a course of antibiotics please finish the whole course.

Certain patients are allergic to some antibiotics so if you begin to feel unwell or develop a skin rash contact your dentist immediately on **01274 543150**.

Female patients taking the oral contraceptive pill may need to use another form of contraception to avoid an unwanted pregnancy.

You may be advised to avoid alcohol if prescribed certain antibiotics such as metronidazole.

Please follow the instruction on your medicine and please finish the whole course of antibiotics.

If you have any questions concerning any of the above, you can talk to your dentist in complete confidence.
